

# THE LATE MR. M. H. ANGLEY.

## FUNERAL YESTERDAY.

The remains of the late Mr. Malcolm H. Angley, fourth son of the late Mr. William Ponsonby Angley, of this city, were removed yesterday morning, at 9.30 o'clock, from Albert Cottage, for interment at the family burial-place, St. Mary's Cathedral. The young gentleman's demise on the very threshold of manhood is deeply regretted by a wide circle of friends, by whom he was beloved for his simple, guileless, and generous disposition. He had a bright prospect in life before him, but

"Death hath all seasons for its own,"

and in the close of a young and useful life, there has been caused a void in the family circle which can never be filled. Deep sympathy, as evidenced by the large and representative cortege which followed the remains to their last resting place, is expressed with Mrs. Angley, and her family in their poignant sorrow. On arriving at St. Mary's Cathedral, the coffin which was strewn with beautiful wreaths and crosses of natural flowers, was borne up the aisle as the solemn strains of "C Rest in the Lord" issued forth from the organ presided over by Mr. F. Muspratt. The service was partly choral, the music being sung by the Cathedral choir, of which the deceased had been a member from his childhood. The 90th psalm "Lord thou hast been our refuge," was sung to a Chant by Purcell, and the hymn was the beautiful one, "Now the Labourer's task is o'er." As the coffin was being conveyed from the church to the grave, the "Dead March in Saul" was played. The burial service was read by the Rev. E. Archdall, Succentor.

The chief mourners were—Messrs. F. B. Angley, L.P.S.I.; E. W. Angley, J. G. Angley, H. P. Angley, W. P. Angley, brothers; F. Mitchell, brother-in-law; W. Myles, cousin; Edmund McCann, uncle.

The clergy present were—Rev. E. Archdall, Rev. T. B. Robertson.

## POLLUTION

### NO CAUSE

At a meeting of the Corporation on Saturday, Mr. Thomas Thorne, in a deputation recently received from the Health Committee of the Corporation, reported that the water of the river at Castleconnell was polluted.

The Mayor said that the Corporation Council should ask the Corporation to inquire into the pollution of the Shannon at Castleconnell. The citizens are very much annoyed by the sewage at Castleconnell. They had a complaint of the water, and they had to commend themselves to the Corporation Council.

Dr. McGrath read a report by Mr. McWeeney on the 28th July at the Corporation Council, infusoria, and bacilli, suggestive of sewerage. The report he said was evident that the water was polluted, and as such the Corporation Council should inquire into the hands of that Corporation Council.

Mr. O'Malley, Chairman of the Corporation, said that a conference was held on the 28th July, and Mr. Ryan, solicitor, reported that the Corporation Council should inquire into the water at Castleconnell.

Mr. Ryan, solicitor, said that the Corporation Council should inquire into the water at Castleconnell. The analysis showed that the water was polluted.
